

## **CAME TOP864NA**

## Programming must be done button by button

- 1. Press simultaneously both buttons on your new remote control until the LED flashes then release
- 2. Press the first button on the new remote control, the LED lightens and remains on
- 3. Within the next 10 seconds, place both remotes head to bottom
- 4. Press the first button on the old remote control
- 5. The new remote control flashes 3 times
- 6. The first button is now programmed

NOTE: Repeat the same procedure for the second button
