Notice

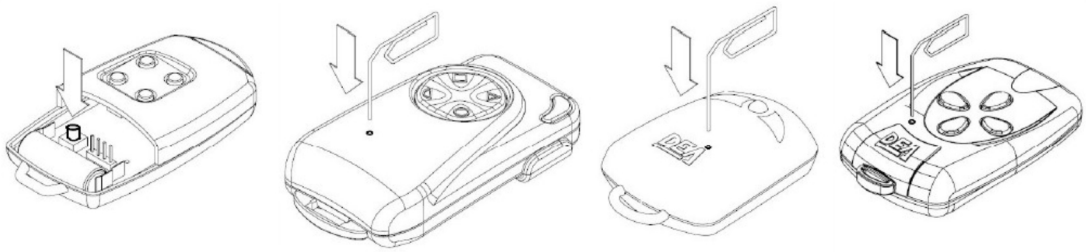
How to program your DEA remote control without Mini-Switches?

Notice DEA Rolling code.

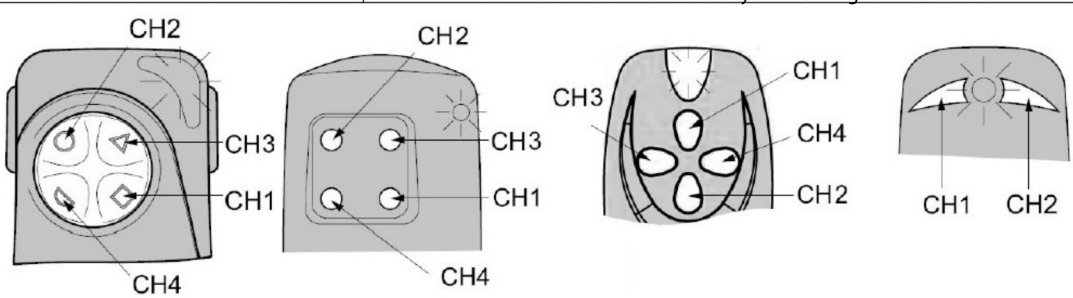
For DEA remotes, without mini-switches with these cases :

GOLD - R	**GENIE - R**	**Moi - TR**
Yellow buttons and 1 grey	2 grey buttons	The low area of this remote is grey

The coding operation is done automatically from an already working remote :
Take an already working remote and the new one.
The operation has to be done while you are next to your gate (in the range of your radio receiver).



On the remote already working :	1° : Press the hidden button or inside the little hole 2° : Press one of the buttons of your working remote control



3° : Take your new remote : Push the button you want to setup

4° : Wait 10 seconds : Test your new remote
